Updated Device: XREAL Beam Pro
Updated Software: My Glasses
Updated Version: 1.8.1
Released: 05/27/2025

1. **Stability Optimization:** Improved system stability and updated underlying code to prepare for upcoming feature releases.

2. (**New) Dynamic Pass-Through Feature:** When connected to XREAL Air 2 Pro, Air 2 Ultra, or the One series glasses, a pass-through setting is now available in the control center. Tap to enable the dynamic pass-through feature for a smoother interaction between the virtual and real world.

3. (**New) Gesture Interaction Support:** Supports air gesture controls with improved accuracy and easier operation. Connect XREAL Air 2 Ultra to Beam Pro and enable gesture interaction from the pull-down menu to use this feature.

4. **Return Issue Fix:** Resolved an issue where some apps couldn't return properly in the Wide View mode.

5. **Spatial Window Interaction Optimization:** When scaling spatial windows, positioning now references the center of the glasses for more accurate control.

6. **Interface Text Optimization:** Updated the "Return to Home" label for clearer user guidance.
